

About the Contributors

Chia-Hung Wei is currently an Assistant Professor of the Department of Information Management at Chien Hsin University of Science and Technology, Taiwan. He obtained his PhD degree in Computer Science from the University of Warwick, UK, and Master's degree from the University of Sheffield, UK, and Bachelor's degree from the Tunghai University, Taiwan. His research interests include content-based image retrieval, digital image processing, medical image processing and analysis, machine learning for multimedia applications, and information retrieval. He has published over 10 research papers in those research areas.

Chih-Ying Gwo received his Bachelor's degree from the National Tsing Hua University, Taiwan, MS degree in Computer Engineering from Syracuse University, New York, USA, and PhD in Electrical Engineering from University of Southern California, USA. He is currently an Assistant Professor of Department of Information Management at Chien Hsin University of Science and Technology, Taiwan. His current research interests include online character recognition and pattern recognition.

Partha Bhowmick graduated from the Indian Institute of Technology, Kharagpur, India, and received his Masters and PhD from the Indian Statistical Institute, Kolkata, India. He is currently an Assistant Professor in Computer Science and Engineering Department, Indian Institute of Technology, Kharagpur, India. His primary research area is digital geometry, with applications to low-level image processing, approximate pattern matching, document image processing and analysis, shape analysis, and biometrics. He has published more than 60 research papers in international journals, edited volumes, and refereed conference proceedings, and holds 4 US patents.

Arindam Biswas graduated from Jadavpur University, Kolkata, India, and received his master's and doctorate degree both from the Indian Statistical Institute, Kolkata, India, where he has submitted his doctoral thesis also. He is currently an Assistant Professor in the Department of Information Technology, Bengal Engineering and Science University, Shibpur, India. His research interests include digital geometry, image processing, approximate shape matching and analysis, medical image analysis, and biometrics. He has published over 40 research papers in international journals, edited volumes, and refereed conference proceedings, and holds one US patent.

Bhabatosh Chanda received B.E. in Electronics and Telecommunication Engineering and PhD in Electrical Engineering from University of Calcutta in 1979 and 1988 respectively. His research interest includes Image and Video Processing, Pattern Recognition, Computer Vision and Mathematical Morphology. He has published more than 100 technical articles in refereed journals and conferences, authored one book and edited five books. He has received 'Young Scientist Medal' of Indian National Science Academy in 1989, 'Computer Engineering Division Medal' of the Institution of Engineers (India) in 1998, 'Vikram Sarabhai Research Award in 2002, and IETE-Ram Lal Wadhwa Gold medal in 2007. He is also recipient of UN fellowship, UNESCO-INRIA fellowship and Diamond Jubilee fellowship of National Academy of Science, India. He is fellow of Institute of Electronics and Telecommunication Engineers (FIETE), of National Academy of Science, India (FNASc.), of Indian National Academy of Engineering (FNAE) and of International Association of Pattern Recognition (FIAPR). He is a Professor in Indian Statistical Institute, Kolkata, India.

Jinn-Ming Chang received his Bachelor of Medicine from Graduate of National Defense Medical Center Faculty of Medicine, in 1975. He currently serves as department head of Health-Care Management Center and department staff of Diagnostic Radiology, Chi Mei Foundation Hospital, Tainan, Taiwan. He is also a Lecturer, Department of Child Care Education, Southern Taiwan University of Technology, Taiwan. His research interests include magnetic resonance imaging, computed tomography, ultrasound, breast medical imaging and interventional radiology.

Lung-Chun Chang received the B.S. degree in mathematics from Tunghai University, Taichung, Taiwan, in 1995, the M.S. degree from the Graduate School of Engineering Technology, National Taiwan Institute of Technology, Taipei, Taiwan, in 1997, and the Ph.D. degree in the Department of Information Management of the National Taiwan University of Science and Technology, Taipei, Taiwan, in 2002. He is now an Assistant Professor with the Department of Information Management at Ching Yun University. His research interests include image processing and human-computer interaction.

Mei Chang is a lecturer of Department of Computer Science and Technology, Neusoft Institute of Information. She received the B.S. degree from Shandong Normal, Shandong, China in 2004 and M.S. degree from Dalian Maritime University, Liaoning, China in 2007. Her main research interests are computer networks technology and application.

Chee-Chiang Chen received his medical degree from the Cebu Institute of Medicine, Philippine. He currently serves in the Department of Diagnostic Radiology, Tungs' Taichung MetroHarbor Hospital, Taiwan. He specializes in general radiology and ultrasound examinations.

Pei Cheng Cheng received the Ph.D. degree in Computer Science and Engineering from National Chiao Tung University (NCTU), HsinChu, Taiwan in 2006. Now he is an associate professor of the Department of Information Management, Ching Yun University, Taoyuan, Taiwan. His current research interests include content-based image retrieval, machine learning, knowledge management, and artificial intelligence.

About the Contributors

Amit Kumar Das was born in Calcutta and completed his Masters and PhD at Calcutta University and Bengal Engineering College (DU), India, respectively. He is presently a Professor in the Computer Science and Technology Department, Bengal Engineering and Science University, Shibpur, Howrah, India. His field of interest includes embedded system design and document image processing.

Mousumi Dutt graduated from St. Thomas' College of Engineering and Technology, Kolkata, and received M.E. degree in Information Technology from Bengal Engineering and Science University, Shibpur. She is now pursuing Ph.D. from the Department of Information Technology from Bengal Engineering and Science University, Shibpur. Her primary research interest is digital geometry and its application in image processing.

Nelson Edewor is a practicing librarian with Delta State Polytechnic, Ozoro. He holds a BLS and MSc in Library and Information Science. His research areas are Library and information, Knowledge Management, Database management and Information policy. He has published in various local and international journals.

Ogochukwu T. Emiri is an Assistant Librarian with Delta State University Library, Delta State University, Abraka. He holds a B.LS and M.Sc. in Library and Information Science both from Delta State University, Abraka. His research interests are in information science, knowledge management, information and communication Technology and Internet/Internet Security. He has a number of research publications in reputable international journals and chapters in books.

Yu-Ching Hsu was born in Changhua, Taiwan, 1988. She is now a student with the Department of Information Management at Ching Yun University. Her research interests include project planning and database design.

Hui-Yun Hu was born in Hsinchu, Taiwan, 1988. She is now a student with the Department of Information Management at Ching Yun University. Her research interests include web design and human-computer interaction.

Pai-Jung Huang is the Chief and Medical Director of Comprehensive Breast Health Center. He earned his medical degree and master's degree in medical informatics at Taipei Medical University. Dr. Huang then received his professional training at Columbia University Medical Center, New York and started his international career. After six years of intensive training, Dr. Huang extended his career back to his home country, Taiwan. Not only was he one of the attending surgeons at Mackay Memorial Hospital, but also he took challenging roles in the medical informatics field at several renowned institutions. In 2001, Dr. Huang ignited his international career again. At Faulkner Breast Center, Massachusetts, Dr. Huang dedicated himself to becoming an expert in mini-invasive surgery of breast. Since 2007 when Dr. Huang came back to Taiwan again, he has been involved in the expansion of comprehensive breast healthcare, and to establish three breast centers in Taiwan, the first one in China, and one in Ho Chi Ming City, Vietnam. In addition, he is actively involved in R&D, cooperating with top academic and research institutions both domestically and internationally.

Yueh-Jyun Lee was born in Taichung, Taiwan, R.O.C. in 1960. He received the B.S., M.S. and Ph.D. degree in Electrical Engineering from Chung Cheng Institute of Technology, Taiwan, R.O.C. in 1982, 1988 and 1997, respectively. Since 2001 he has been an Assistant Professor in the Department of Information Management at Ching Yun University. His research interests include neural network and digital signal processing.

Yue Li received his PhD degree in computer science from University of Warwick, UK, in 2009, M.S. in Information Technology from Department of Computer Science, University of Nottingham, UK, in 2005, and BSc in Mathematics from Nankai University, China, in 2003. He is currently an assistant professor of Collage of Software, University of Nankai, China. He serves as a member of editorial review board of International Journal of Digital Crime and Forensics. His research interests include digital forensics, multimedia security, digital watermarking, pattern recognition, machine learning and content-based image retrieval.

Menq-Wen Lin received his M.S. degree in computer science from New Jersey Institute of Technology, New Jersey, USA, and Ph.D. in computer science and engineering from Yuan Ze University, Taiwan in 2004. In 1990, he joined Ching Yun University, Taiwan, where he is now an associate professor. His current research interests include data mining and agent technologies.

Yuh-Fong Lin was born in Hualien, Taiwan, R.O.C. in 1957. He received the B.S. degree in surveying and mapping from Chung Cheng Institute of Technology, Taiwan, R.O.C. in 1978, the M.S. degree from the Graduate School of Photogrammetry, National Cheng Kung University, Tainan, Taiwan, in 1982, and the PhD degree in the Department of geography of the National Taiwan Normal University, Taipei, Taiwan, in 1996. He is now an Associate Professor with the Department of Information Management at Ching Yun University. His research interests include digital mapping and quantitative research.

Ji-Chyun Liu was born at Taiwan in 1951. He obtained the B.S., M.S. and PhD degrees from Chung-Cheng Institute of Technology in 1974, 1981 and 1993 respectively. From 1981 to 2003, he was instructor, associate professor and professor of Chung Cheng Institute of Technology. Now, he has been the professor of Ching Yun University since 2003. His research has included microwave integrated circuit design, wide-band filter, wide-band amplifier, chaotic oscillator, broadband antenna, fractal antenna, active integration antenna, broadband absorber, ceramic metamaterials as well as EMI/EMC and microwave instrumentation and measurement.

Shih-Wen Liu was born in Taoyuan, Taiwan, 1987. He is now a student with the Institute of Information Management at Ching Yun University. His research interests include satellite cloud image and 3-D profile reconstruction.

Sekhar Mandal received his BTech and MTech degrees in Radiophysics and Electronics from University of Calcutta. He did his PhD from Bengal Engineering and Science University, Shibpur, Howrah, India, where is presently an Assistant Professor in the Computer Science and Technology Department. His primary research area is document image processing.

About the Contributors

Owajeme J. Ofua is an Assistant Librarian in Delta State University Library, Delta State University, Abraka. He holds a B.Sc. and M.Sc. in Library and Information Science from Delta State University, Abraka, Nigeria and is currently a doctoral student in the same department. His research interest lie in Information and Communication Technology in Libraries, African Indigenous knowledge system and bibliometric analysis.

Tiemo Aghwotu Pereware is currently a senior librarian with Niger Delta University library, Wilberforce Island. He has previous worked with the British Council Library Nigeria and in Delta state University Library, Abraka, where he was also an associate lecturer in the Department of Library and Information Science. He has published chapters in books and article in leading international and local journals.

Aisharjya Sarkar graduated from Narula Institute of Technology, Kolkata, and received M.E. degree in Information Technology from Bengal Engineering and Science University, Shibpur. Her specific areas of research include digital geometry and image analysis.

Zheng Tang is a professor of Toyama University, Toyama, Japan, he received the B.S. degree from Zhejiang University, Zhejiang, China in 1982 and an M.S. degree and a D.E. degree from Tshinghua University, Beijing, China in 1984 and 1988, respectively. From 1988 to 1989, he was an Instructor in the Institute of Microelectronics at Tshinhua University. From 1990 to 1999, he was an associate professor in the Department of Electrical and Electronic Engineering, Miyazaki University, Miyazaki, Japan. In 2000, he joined Toyama University, Toyama, Japan, where he is currently a professor in the Department of Intellectual Information Systems. His current research interests include intellectual information technology, neural networks, and optimizations.

Pereware A. Tiemo is a Senior Librarian in Niger Delta University Bayelsa State Nigeria. He holds a BLS and MSc in Library and Information Science. He has prevoiusly worked with the British Council library, Lagos office and also in Delta State University library, Abraka as a librarian and an associate lecturer in the Dept of library and information Science. He has published articles in local and international journals. His areas of interest are Internet, Information magement, e-library and librarianship in general.

Wei Wang is a lecturer of College of Software, Nankai University,China. He received the B.S. degree from Dalian Maritime University, Liaoning, China in 2003 and a MS degree and a DE degree from University of Toyama, Toyama, Japan in 2007 and 2010, respectively. In 2010, he joined Nankai University, China. His main research interests are artificial neural networks, artificial immune networks and pattern recognition.

Xiaofei Wang received the B.S. degree from University of Toyama, Toyama, Japan in 2005 and a M.S. degree and a D.E. degree from University of Toyama, Toyama, Japan in 2007 and 2010, respectively. His main research interests are artificial neural networks and optimizations.

Chia-Liang Wei is currently a section chief of purchasing division in Allis Electric Co., Ltd. He obtained his Master degree in Logistics and Business Management from University of Bedfordshire, UK in 2006. His research interests include operation management, logistics, international trade and business process. During work, he assisted his organization to develop its own import and export trading system in 1996. By 2002, he participated in the introduction of ERP systems in his company.

Hsin-Ju Wei is currently a senior SAP FI/CO module consultant of ERP. She obtained her Master degree in MBA from University of Leicester UK in 2009. Her research interests include coordination and analysis of business process, and planning, integration and implementation of information system. She has worked over 20 years in those research areas. At present, she assists Taiwan's small and midsize enterprises in introducing ERP systems.

Yi-Syuan Wu was born in Taoyuan, Taiwan, 1988. She is now a student with the Department of Information Management at Ching Yun University. Her research interests include system analysis and database design.

Fang-Chuan Ou Yang is an Assistant Professor in Department of Information Management at Ching Yun University in Taiwan. He received his PhD of Information Management from Nation Central University (2009) in Taiwan. He teaches professional computer courses in several software training centers before joining Ching Yun University. He has extensive experience on software design, distributed technologies, and e-learning systems. His current research interests include digital content, multimedia/hypermedia, e-learning, distributed computing, web 2.0, mobile learning, and cloud computing. He is also sponsored by National Science Council for preceding several research projects regarding L2 English vocabulary learning, mobile learning, and constructivist learning.
